Mr C M West  
Dear Sir

I have just returned from Marianna. The same old question was asked by the men who signed that protest to you (there are 10 names on it) "Have you removed your fences from the street?" A Jackson Co gentleman told me he wanted to buy one of those lots N & E of your place, but said it was not worth much with your fence in the street. The lot owners want you to take them away. It particularly injures Mr Emmons & myself. You will find the plat recorded at Vernon in Volume 11 page 501. I asked Berth Chase to take his E & S fences from the street. Said he did not know they were in the street, but he acted the perfect gentleman & removed them immediately & put them on the line. Now I will ask you once more in all kindness & as a neighbor to take your North & East fences out of the street & put them back on the line you have promised to do so. One year from today if they are still in the street, no matter who owns the place by the living God I will cut them down with an axe myself.

Yrs &c

A M Baker
